Call (573) 364-9000 or visit pHELPSHEALTH.org to schedule an appointment today.

Not feeling well over the weekend or after business hours? Phelps Health Immediate Care, with locations in Rolla and Waynesville, is open weekends from 8:00 AM-6:00 PM and weekdays from 8:00 AM-8:00 PM.

Dear Valued Patient,

Thank you for choosing Phelps Health for your healthcare needs. We consider serving you to be a privilege, and we hope you are on your way to feeling well. Due to your recent visit, we noticed our records indicate that you do not have a primary care provider. A primary care provider, or primary care physician (PCP), is what most people simply refer to as their “doctor.”

When you establish care with a PCP, you are taking an important step in making sure you stay healthy throughout your life. Your PCP can help you with preventive care (healthcare that includes health screenings, routine check-ups, shots, labs, etc.) and identify and treat diseases and illnesses. If you need additional care, your PCP can help ensure you are seen by a specialist (a doctor who has more training in a particular disease or illness).

Phelps Health has numerous PCPs who are currently accepting new patients. Several of these providers even offer same-day or next-business day appointments for when you need to be seen quickly and do not want to wait. For added convenience, Phelps Health has providers practicing in multiple locations, so you can establish care closest to where you live and work.

To begin care with one of our PCPs, please visit phelpshealth.org or call (573) 364-9000. Our providers are ready to make sure that you get the right care, in the right setting, as quickly as possible. Do not delay your care. Make an appointment today!

Sincerely,

Pecos Coble, DO
Senior Vice President, Chief Medical Officer of the Medical Group
