

HOW TO VIEW YOUR AFTER VISIT SUMMARY IN MYCHART

Even if you take notes during a medical visit, you may not remember everything. Enter the **after visit summary (AVS)**. Upon checkout from a Phelps Health clinic or the Hospital, patients can view this easy-to-read summary report in MyChart.

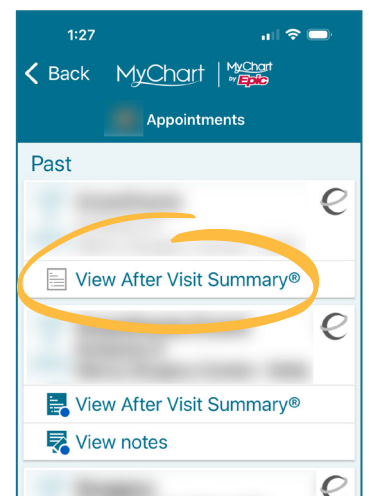

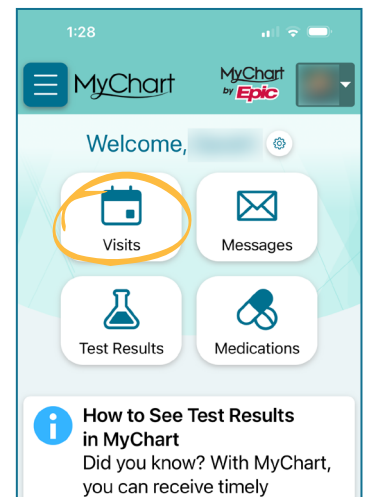

The AVS is a helpful tool for helping patients and their caretakers stay up to speed on their current medical status. The AVS allows your healthcare provider to keep accurate and up-to-date records of your treatments, needs and concerns.

VIEW YOUR AVS BY FOLLOWING THESE STEPS:

1. Log on to mychart.phelpshealth.org or open the app on your phone.
2. At the top of the homepage, click on “Visits.”
3. Click on “View After Visit Summary.”
4. Review your past visit information.
5. Scroll back to the top to open the “Notes” tab for more in-depth information.
6. Review additional notes from your provider.

WHAT'S IN MY AVS?

- Date and location of your visit
- Name of your provider and the issue(s) addressed
- Instructions from your provider
- Vitals (e.g., blood pressure, weight, temperature)
- What’s next: See any upcoming appointments
- Current medication list
