

# PHELPS HEALTH HOMECARE PROVIDES THE ASSISTANCE YOU NEED

We understand that the best place to be is home, and most people want to stay there as long as possible. At Phelps Health Homecare, our goal is to help make that happen.

Our homemaker staff receives ongoing training, has passed rigorous background checks and is insured. Our agency is also accredited by The Joint Commission for your safety.

Medicaid and the Veterans Benefits Administration pay for these services if eligibility qualifications are met. If you do not have these benefits, the services are available through a private-pay option.

**Phelps Health Homecare covers Phelps and surrounding counties.**

Phelps Health Homecare offers comprehensive homecare services in Phelps and surrounding counties. Phelps Health Homecare is a local, nonprofit agency with three distinct programs, including home health, hospice and in-home support.

## Home Health

Short-term skilled care to provide nursing and therapy services in the home

## Hospice

Holistic care to improve the quality of life while living with a terminal condition

## OUR MISSION

To improve the health and wellness of people in our region

## OUR VISION

Phelps Health will be the preferred health system in our region

## Phelps Health Homecare—In-Home Support/Private Services

**Nursing:** Medication setup, prefiling insulin syringes, wound care, diabetic foot/nail care, monitoring of general health and skin condition

**Advanced Personal Care:** Ostomy and catheter hygiene, bowel programs, passive range of motion, transferring and positioning, skin care, assistance with medication reminders and blood glucose checks

**Personal Care:** Bathing/hygiene, grooming, dressing, toileting, incontinence care, mobility/transfers, nondiabetic nail care, medication reminders, making/changing bed linens and meal preparation/cleanup

**Homemaker Chores:** Simple household duties such as sweeping, mopping, vacuuming, dusting, washing dishes, trash disposal, laundry, meal preparation/cleanup, grocery shopping, running errands and telephone assistance

**Respite Care:** Companionship, supervision, observation, assistance with light meal preparation/cleanup and medication reminders

### WHO COMMONLY USES IN-HOME SUPPORT SERVICES?

- The elderly person who needs assistance with housekeeping and errands
- The disabled person who needs assistance with personal care
- The individual providing care for a severely disabled loved one who requires near total or total care
- The adult son or daughter who lives a distance from his or her parent and wants a trained medical caregiver to help with meals and medication reminders or a nurse to periodically “check up” on them
- The elderly or disabled person who needs a nurse to fill a medication reminder box or provide foot care due to diabetes or similar conditions

“IF IT WASN’T FOR PHELPS HEALTH HOMECARE’S IN-HOME SUPPORT PROGRAM, MY MOTHER COULD NOT STAY AT HOME AND DO AS WELL AS SHE IS DOING.”
